

Average of assortativity coefficients ($\langle R \rangle$) for networks with $m_0 = 2$, Spearman
 $d = 1$

$\circ - N = 4096$
 $\square - N = 8192$
 $\triangle - N = 16384$
 $\triangledown - N = 32768$
 $\star - N = 65536$
 $\times - N = 131072$
